Email notice sent when the pass code requirement is turned on

From: antispamcenter@zixcorp.com
Sent : Friday, April 25, 2003 10:39 AM
To: john@example.com
Subject: Pass code required

According to user complaints and the data we collected, a large number of unsolicited email messages appear to be sent from your email address john@example.com. It is possible that a spammer is sending out spams pretending to be from your email address. In order to filter out spams while letting your messages to go through, you need to include the following pass code on the first line of every email message you send out. The pass code will allow your messages to pass through the Zix SPAM filters while blocking spammer's messages pretending to be from you. Please note, a message sent without the correct pass code will be blocked by the Zix SPAM filters.

370urebn3s983sg

From the following site, you may download plug-ins that will automatically insert the pass code into every message you send out. The plug-in will put the pass code in a header of the email message, instead of on the first line, so that it will not be seen by the recipient.

Email notice sent when the pass code requirement is turned off

From: antispamcenter@zixcorp.com
Sent : Friday, April 25, 2003 10:39 AM
To: john@example.com
Subject: Pass code not required any more

We are pleased to inform you that the spammer who has been sending spams pretending to be from your emails address has been tracked down and his ISP has terminated his account. He is not sending any more spams pretending to be from your email address. As a result, we have turned off the pass code requirement on your email address. You do not have to include the pass code in your email messages any more.
